

Company Overview

International Turnkey Systems (ITS), founded in 1981 in Kuwait, is a leading company in providing integrated information technology solutions and software services. The company offers world-class products and services that enable regional companies to keep pace with the evolving changes in today's competitive business environment, and to meet future challenges and opportunities. ITS services mainly target banks and financial institutions, both conventional and Islamic, in addition to the telecommunications and higher education sector.

Banking and Finance Solutions: In the last two decades, ITS has established itself as a market leader in providing innovative, end-to-end, turnkey IT infrastructures and software solutions for banks and financial institutions, both conventional and Islamic, across the region. The company can also implement Islamic banking solutions for newly established Islamic banks and institutions in less than two months.

Communications Sector Solution: ITS is committed to providing outstanding products and services to telecom clients in all the regions that it serves. The company has set up several Remote Managed Services (RMS) centers in the United Arab Emirates (Dubai) and the Hashemite Kingdom of Jordan and Pakistan to allow companies to outsource their technology infrastructure and applications requirements, thus reducing the cost of ownership and increasing returns on investment.

Higher Education Sector Solution: ITS Center for Educational Technologies (ITS CET) provides a viable and proven technology framework designed to empower educational institutions to meet the challenges of the future through intelligent use of information technology.
